

The diagram illustrates a mobile communication system architecture. It features a mobile station (20) and a base station (10). The mobile station (20) includes a Handset (20), a Display (30), a Keypad (40), and a Controller (10). The base station (10) includes a Controller (50), an Interface (55), and a Communications Terminal (E1). A second mobile station (80) is also shown, consisting of a Controller (80), an Interface (55), and a Communications Terminal (E2). A central database (140) is connected to the mobile stations and the base station. Various signal paths and data flows are indicated by arrows and labels like V1, V2, and R.
